SHIVANSH SHARMA
FULL STACK DEVELOPER

Email: sharma.shivansh1305@gmail.com | **Phone:** (+91) 6398799630 | **Portfolio:** https://shivanshsharma.vercel.app
LinkedIn: https://linkedin.com/in/shivansh-sharma-73270724b | **GitHub:** https://github.com/Y-Shivansh

SUMMARY

Results-driven **Full Stack Developer** with expertise in **Microservices architecture**, **Agile methodologies**, and **AI Integrations**. Adept at designing **RESTful APIs** and building dynamic **React.js** interfaces while ensuring **secure authentication** and **payment flows**. 2+ years of experience developing scalable applications, with hands-on proficiency in **Node.js, React.js, MongoDB, Google Gemini API, OAuth, JWT, and Docker.**

TECHNICAL SKILLS

Programming:	JavaScript, TypeScript, Java	**Databases:**	MongoDB, PostgreSQL
Web Development:	Node.js, Express.js, React.js, REST APIs	**AI & DevOps:**	Google Generative AI API, Docker
Design Tools:	Figma, Canva	**Auth & Payments:**	OAuth, JWT, Razorpay
Version Control:	Git, GitHub	**Other Concepts:**	Agile workflows, Deployments

PROFESSIONAL EXPERIENCE

Software Development Intern, OrangeCat Technologies — August 2025 - Present
- Spearheaded frontend redesign of a developer platform using React and Tailwind CSS v4, **improving UI performance and consistency.**
- Created a **library of 10+ reusable UI components** integrated with OAuth, enabling faster interface assembly.
- Worked closely with the co-founder and design team to ensure consistent UI implementation, **reducing frontend handoff friction**.

Web Development Intern, NexisLabs Solutions — June 2025 - August 2025
- Supported feature delivery in an Agile setup using React.js and Node.js, contributing to **faster development cycles** across 2+ sprints.
- Implemented **RESTful APIs** to streamline data flow across application layers.
- Optimized request handling logic, **reducing backend response time** by nearly 10%.

PROJECTS

Syntx Website Revamp (Under NDA) — August 2025 - Present
- Revamped the frontend of a developer platform using React and custom SVG-based UI from Figma.
- Used OAuth login (Google + GitHub) and developed UI with SVG styling and **optimized component reuse.**
- Collaborating with the core team to **align UX decisions with product goals.**
- Full implementation details are restricted due to the NDA.

Solo Project – CourseHub: Learning Platform — July 2025 - Present
- Devised a scalable full-stack MERN application with JWT-based auth, **role-based access**, and enrollment flow.
- **Integrated contextual Gemini AI** chatbot, Razorpay payments, and OAuth (Google) using Auth0.
- Designed modular backend architecture with clean route separation and validation using Zod.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Auth0, Razorpay, Gemini AI, Zod.
- Future plans include **Dockerization**, **AWS EC2 backend hosting**, S3 storage, and CloudFront CDN setup.
- **Repository:** https://github.com/Y-Shivansh/CourseHub | **Live Demo:** https://coursehub-xi.vercel.app

Freelance Project – Food Waste Reduction App — November 2024
- Built a responsive MERN application to **connect donors and recipients of surplus food** as part of a **fast-paced team project.**
- Delivered the complete platform within **three days**, ensuring smooth UI flow and functional **admin** operations.
- Handled backend integration for authentication, and expiration-based food listings.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Cloudinary.

EDUCATION

B.Tech in Information Technology, Ajay Kumar Garg Engineering College, Ghaziabad — June 2026
- **Team Lead, Smart India Hackathon** (SIH) 2024: Led a team **shortlisted from 302+ internal college teams**; secured a **Top-5 rank** in institute-level selection.

CERTIFICATIONS

- **Full Stack Web Development - 100xdevs** (2025)
- **AI with Tensor Flow** - Infosys Springboard (2025)
- **Introduction to Cyber Security** - Infosys Springboard (2025)
- **Postman API Prototyping** - Postman (2025)

HOBBIES

- History Enthusiast | Geopolitics | Gymming | Music
